Update Instructions

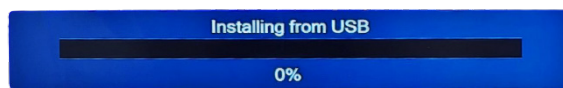

Storm Games Update to Version 4.288.0

1. Power Off the Game Machine. 
2. Insert the USB into any available USB Port on the Game Board.

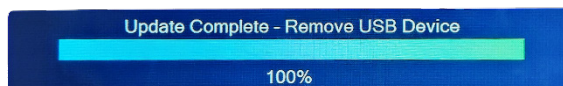

3. Power On the Game Machine. 

The USB will automatically install the update.

4. Once the Update is installed, remove the USB.

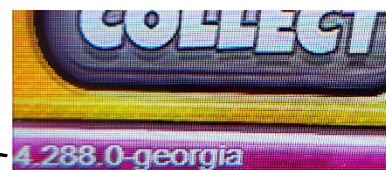

Warning: The Game will not start until the USB has been removed. Restarting the machine with the USB still inserted will cause the update process to begin again.

The Game will load. Check the lower left corner for the version number and verify it is now version 4.288.0.
