

Advanced Security

Secure Login: Streamlined login process requiring a 12-digit numeric pin or system generated QR Code.

Activity Tracking: All activity is tracked by user ID and recorded in both the portal and on printed receipt.

Built-in Surveillance: Photos are automatically taken during operator login and vault door access.

- ▶ Images are securely stored in the cloud when the kiosk is online.
- ▶ Photos are retrievable on request for audits or reviews.

Ticket Redemption: Fraud prevention algorithm safeguards ticket redemption integrity.

Pull-tab Redemption

Vendor Integration: Compatible with major national pull-tab suppliers.

Encrypted Deal Loading: Deals are imported securely through encrypted online channels.

Custom Reporting: Advanced report customization lets you track:

- ▶ Redemption activity
- ▶ Risk exposure
- ▶ Outstanding liabilities

Bulk Redemption: Allows players to redeem multiple pull-tab tickets in a single transaction.

Real-Time Insights

New Operator Portal: Provides an enhanced operator interface, tailored dashboards and advanced auditing tools.

Real-Time Reports: Detailed reports for collection periods, redemptions and flash reports.

Collector Operations

Efficient Collector Operations: Uses the kiosk's cash dispenser for faster, more accurate tasks including:

- ▶ Bleed (removing excess cash)
- ▶ Cassette audits and true cash reconciliation
- ▶ Master clears (empty all cash from machine)

Vault Security Enforcement: Dispensing operations are conditional:

- ▶ Vault door must be opened/closed prior to cash dispense, ensuring physical presence and secure access.

Low Cassette Level Alerts: Additional alerts and alert options via SMS or email.

Simplified PIN Management

Web Portal Integration: Users can easily generate or reset a PIN directly within the Your Profile section on the Primero web portal.

One-Click Operation: The process is designed to be intuitive and accessible with minimal steps.
